

StraDerm®

Safe. Effective. Easy.

Professional use

StraDerm®

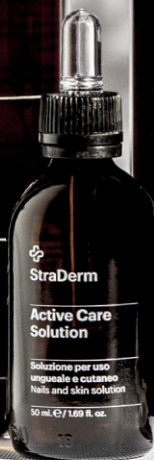

About us

StraDerm® is an Italian brand owned by the company Research Lab Int, the leader in professional cosmetic products for beauty salons. The centre of our production and laboratories is based in Veneto in the north-east of Italy. Research laboratory has over 35 years experience in Italian and international cosmetology industry producing cosmetics, BAA and medications for dermatological use.

High quality standards brought in from the area of pharmaceuticals and active ingredients with proven efficacy make StraDerm's formulas unique. They have been developed by specialists in dermatology and cosmetology and thus have a more intensive effect on skin and nail plate.

StraDerm® is the world's first dermatological line for professional manicurists and pedicurists, which works on a cellular level and solves any esthetic problems.

Brand philosophy: maximum concentration of natural active ingredients, convenience of professional use, high efficiency, and safety.

Treatment Soap

Sanitizing soap for all skin types

Lactic acid
Hamamelis extract
Helichrysum extract
Algae extract

Deeply cleanses and moisturizes the skin and initiates the natural process of cellular detoxification. This soothing, nutrient and pH-balanced formula has anti-inflammatory, antimicrobial and antifungal properties and efficiently neutralizes odors.

Ideal for both professional and home use.

Active ingredients:

Coconut oil, vitamin F, algae, lactic acid, witch hazel extract, phytic acid, helichrysum extract, climbazole, oat Proteins, panthenol.

Usage:

Massage a small amount of soap into damp skin, lather and rinse with lukewarm water.

250 ml / 500 ml

Callus Softener Spray for professional use

45% Urea

10% Lactid acid

Effectively softens calluses, dry or keratinized skin, hyperkeratosis, prepares cracked skin for further treatment. Suitable for all skin types, this safe formula hydrates and moisturizes skin, eliminating dryness, it has both a neutral pH and antibacterial properties. Suitable for any type of pedicure, it reduces the amount of time spent by the pedicurist and makes the procedure more comfortable for the client.

Does not contain aggressive acids or bases.

Usage:

Spray product at a distance of 10 cm on hardened skin and let absorb for 2-5 minutes. Time will vary depending on the degree of keratinization. Proceed with filing/scrubbing/machine processing, repeat if necessary.

This product does not need to be washed off, as it will continue to moisturize the skin after the end of the pedicure, with a long-lasting, cumulative effect.

Keratolytic therapy can also be used to soften periungual or subungual callosities.

Keratolytic therapy can also be used to soften the nail plate when removing an extensive hematoma, treating onychomycosis or performing onycholysis.

Attention: Keep out of reach of children. For external use only.

200ml / 500ml

Cuticle Remover for professional use

Biotin + B3
Keratin
Bisabolol
Calendula extract

This product makes it possible to soften and remove cuticles easily and effectively. Enriched with plant extracts and vitamins and antiseptic properties, the product restores cellular metabolism and soothes skin, while its liquid gel formula greatly reduces the risk of injury and cuts during manicure or pedicure.

Suitable for all types of manicures and pedicures.

Active ingredients:

Calendula Flower Extract soothes irritated and sensitive cuticles during manicure/pedicure, has bactericidal and antiseptic properties.

Yarrow extract antimicrobial agent, promotes restoration of cuticle and elasticity after the procedure.

Keratin works in germinal matrix of nail plate, protects surface of nail during procedure.

Bisabolol soothing agent, reduces risk of skin damage, as well as the probability of inflammation, relieves irritation and soothes skin after manicure/pedicure, has anti-inflammatory properties.

Panthenol provides deep hydration, makes manicure safer by facilitating precise cut during combined manicure and machine manicure, i.e. prevents cuticle from tearing.

Biotin + B3 complex of water-soluble vitamins, reduces/prevents dryness and flaking, keeping cuticle moisturized and soft after manicure/pedicure procedure, forms protective lipid mantle.

Usage:

Apply the product to cuticle, wait 30 seconds, move cuticle and start manicure. Rinse off remaining gel with water or wipe off with a damp cotton pad at end of procedure.

100 ml

Active Care Solution

Broadspectrum oxygen drops for nails and skin

Hyaluronic acid
Melaleuca oil
Eucalyptus oil
Keratin

Enriched with hyaluronic acid, keratin and active oxygen, this formula contains a powerful complex of herbal extracts and biologically active ingredients. Highly efficient for solving nail and skin problems, this product can be used both as a treatment and a preventive measure for onycholysis, fungal infections of the nail and skin and eczema on hands and feet.

This antimicrobial formula accelerates the healing of cracks and cuts in skin, while relieving and eliminating inflammation. It is perfect for restoring and moisturizing cuticles after manicure/pedicure.

The oxygen-enriched formula contains the following active ingredients:

Active oxygen, eucalyptus oil, 3D hyaluronic acid, tea tree oil, panthenol, bisabolol, castor oil, biotin, niacinamide, keratin protein, macadamia nut oil, sweet almond oil.

Usage:

Apply twice a day on and under clean nails and on affected skin.
Minimum duration of treatment:
4 weeks. For prevention, apply drops twice a week.

50 ml

Nail & Cuticle Treatment

Balm for restoring the nail plate and cuticle

Biotin + PP

Keratin

Macadamia Oil

Active ingredients and vitamins restore the structure of the nail plate, thickening and strengthening nails and preventing fraying.

This treatment gel helps strengthen and grow natural nails while restoring the cuticle's lipid layer and nourishing, moisturizing and healing inflamed skin around the nail plate.

Active ingredients:

Keratin, biotin, beeswax, vitamin PP, niacinamide, macadamia nut oil, castor oil, shea butter, sweet almond oil, chamomile flowers extract, vitamin E, lecithin.

Usage:

Massage into skin twice a day. Do not wash off 2-3 hours after the application.

10 ml

Ultra Moisturizing Repair Cream

Ultra regenerative and protective moisturizing cream

Urea
Lactic acid
Biotin
Bioactive ceramides
Hyaluronic acid

This intensive moisturizing hand and foot cream contains a complex of bioactive ceramides and vitamins, as well as hyaluronic acid and lactic acid to instantly moisturize dry skin while soothing flakiness and cracks.

This product efficiently soothes irritated skin and relieves redness, inflammation and dermatitis, while protecting from negative environmental factors throughout the day.

Paraben free.

Active ingredients:

Ceramides replenish necessary lipids, eliminating dryness, increasing local immunity and stimulating the production of natural collagen and elastin, relieves irritation and inflammation, protecting the skin from negative environmental factors.

Lactic acid moisturizes skin evenly across the epidermis, reaching its deepest layers, stimulates the production of fibroblasts, thereby increasing the skin's synthesis of natural hyaluronic acid – a powerful natural moisturizer. This natural filler keeps the skin smooth and supple.

3D Hyaluronic Acid provides long-term hydration and increased skin elasticity, stimulates the production of natural collagen, elastin and hyaluronic acid.

Carbamide (Urea) moisturizes skin, relieves the feeling of tightness, accelerates cell regeneration, has anti-inflammatory properties, at a concentration of 10% relieves irritation and promotes cell renewal.

Niacinamide (B3) + Biotin (B7) strengthens and nourishes skin, promotes collagen production and improves skin tone, restores skin elasticity, eliminating peeling, irritation and dryness, slows down the aging process.

Panthenol moisturizes and heals skin, stabilizes metabolic processes in cells, accelerates the production of collagen thereby restoring metabolic processes, which helps maintain skin tone and youthfulness.

Sweet almond oil nourishes and moisturizes skin, relieves dryness, irritation and flakiness, evens out the skin tone, eliminates and prevents hyperpigmentation.

Vitamin E + C this complex of vitamins moisturizes and softens skin and prevents premature signs of aging.

Usage:

Apply the cream to clean skin and massage until fully absorbed. Several applications a day are recommended for deep hydration and nourishment and dermal revitalization.

3 ml / 50ml / 150ml

Balancing Care Gel

Cooling gel to treat wet skin on feet

Hamamelis water
Ruscus extract
Blueberry extract
Escin

This formula contains a complex of extracts and a high concentration of bioactive ingredients to treat moist skin on feet in a balanced way. With its antiseptic and astringent properties, it soothes skin and optimizes the function of the sweat glands, providing a cooling effect and a long-lasting feeling of freshness to the feet.

Increases skin vitality, improves microcirculation and metabolic processes, relieves the feeling of heaviness and fatigue in the legs, has anti-edemic properties.

Paraben free.

Active ingredients:

Witch hazel regulates the work of sweat glands, refreshes skin, eliminates bacteria in pores, has exceptional antiseptic, antibacterial and antifungal properties, soothes dry skin and accelerates the healing of cracks and scratches, a powerful antioxidant.

Escin active ingredient derived from horse chestnut extract, relieves puffiness and feeling of heaviness, has anti-inflammatory and venotonic properties, restores permeability and reduces capillary fragility.

Blueberry extract moisturizes and soothes skin, mildly relieving pain, stimulates cell division and wound healing, eliminates cracks in skin, softens rough and dry skin.

Ruscus extract a powerful natural decongestant and anti-edemic remedy, strengthens blood vessels, improves microcirculation, has vasoconstrictive and anti-inflammatory properties, relieves redness and eliminates feelings of heaviness in legs.

Menthol helps eliminate inflammation, reduces pain and itching, has calming effect on skin.

Menthyllactate has soothing and anti-inflammatory properties, stimulates microcirculation, promotes skin vitality.

Usage:

Apply the cream to clean, dry skin and massage until fully absorbed.

3 ml/ 50ml / 140ml

Revitalizing Hand Cream

Anti-age lightweight moisturizing hand cream

Jojoba seed oil
Niacin
Panthenol
Vitamin E

Efficiently moisturizes and nourishes skin, stimulating the production of collagen and elastin and increasing the firmness and elasticity of the skin. A unique complex of antioxidants, vitamins and niacinamide provides maximum nutrition and recovery at the cellular level, protecting the skin from moisture loss and restoring elasticity without leaving a sticky residue or an oily sheen.

A complex of UV filters helps prevent the appearance of age spots and reduces dermal photoaging.

Paraben free.

Active ingredients:

Jojoba oil moisturizes and nourishes skin, improves firmness, eliminates early signs of skin aging, accelerates skin renewal, improves elasticity, lightens age spots.

Niacinamide promotes collagen production and improves skin tone, restores skin elasticity, eliminating peeling, irritation and dryness, slows down the aging process.

Sweet almond oil softens and moisturizes skin, evens out skin tone and texture, eliminates dryness, irritation and flaking.

Panthenol moisturizes and heals skin, stabilizes metabolic processes in cells, accelerates the production of collagen, thereby restoring metabolic processes, which helps maintain skin tone and youthfulness.

Vitamin E antioxidant, penetrates the layers of the skin, repairing damaged structures, increasing the barrier function of the dermis and reducing moisture loss throughout the epidermis.

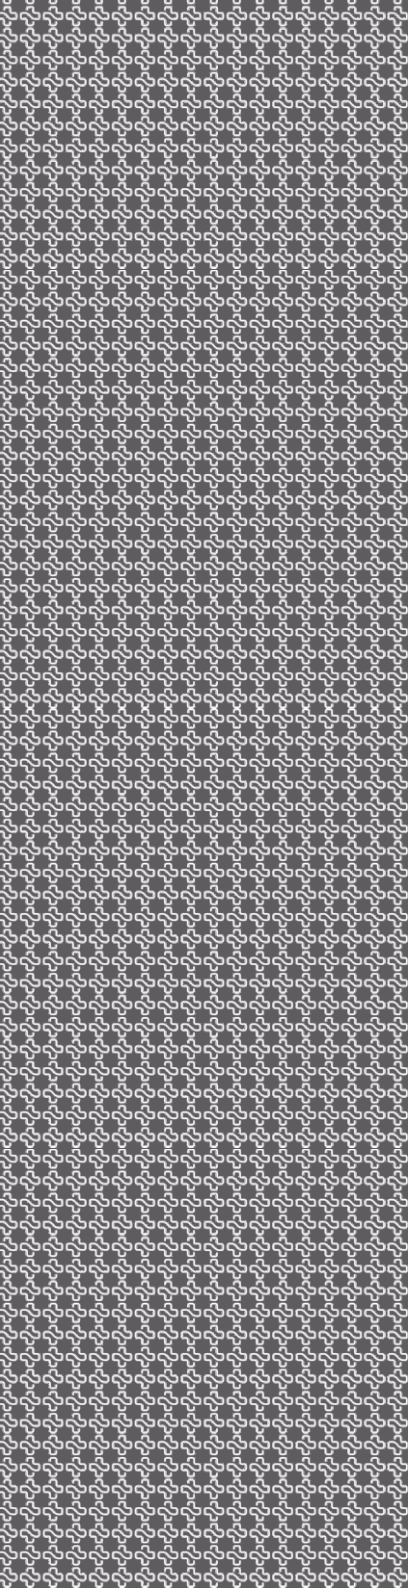

UV filters a complex of filters to prevent hyperpigmentation.

Usage:

Apply the cream to clean, dry skin and massage until fully absorbed.
